I am currently working at the Goal lab, department of psychology, Utrecht University, as a Ph.D. student. My research interests include Pavlovian-instrumental transfer in human goal-directed behavior, psychological health of adolescents, and addiction. I design and conduct behavioral experiments (online or lab study) combined with a questionnaire survey to investigate the topics. Now I am working on a project titled "The environmental control of human goal pursuit: a PIT analysis.

Education

Hubei Normal University

BACHELOR OF APPLIED PSYCHOLOGY   *2010-2014*

Southwest University(China)

MASTER OF APPLIED PSYCHOLOGY   *2014-2017*

Utrecht University

PH.D. CANDIDATE   *2017-2022*
